News has been received here of the marriage of Miss Charlotte Gregory, of this city, to Maj. H. A. Allen, of Indianapolis, Wednesday, June 28, at the home of Mr. and Mrs. Fred Ayers in Washington, D. C. The Rev. McMas-

ters, of the First Baptist church of that city, performed the ceremony.

Mrs. Allen was accompanied to Washington by her sister, Mrs. Edward E. Brown. She is one of Chattanooga's popular young ladies and has many friends who will be interested to learn of her marriage.

Maj. Allen was stationed at Fort Oglethorpe several months, where he was an instructor in the medical officers' training camp.

SOME GARDENS GROWING PROLIFIC CROP OF WEEDS

Supervisor and Committee Deny Neglect of Gardens in Dry Weather.

In the recent inspection of gardens by the central garden committee a few instances have been found of gardens which were prolific in weeds.

One of these was noted on McCallie avenue and another in Highland Park near the National cemetery. Both of these vacant lot gardens showed excellent preparation earlier in the season. Time and money had been spent upon cultivation and fertilizer, and the first crops did their best to do a patriotic duty; for, if appearances count for anything, the gardens produced abundantly. But now the soil is lying idle, except in producing a crop of weeds which are using the plant food and moisture that might just as well be producing more vegetables. What would be thought of a business man who operated his plant only a portion of the time? aptly asks a member of the committee.

In order to make a garden profitable it is necessary to practice continuous cultivation. Chattanooga's climate is favorable for twelve months' gardening during the year, it is stated, and every person who has even a small space for gardening should consider it a patriotic duty to convert this space into a plant factory for the production of food every month of the year. Vegetables that can be planted now for profit are: Beans, corn, potatoes, beets, turnips (purple top).

This is the time to show patriotism in every way. Food production is a very important way. If it is necessary for every member of the family to take a vacation at the same time it would be well to turn over the garden to some one who would look after it.

Paris—Handsome serge coat suits are removed from the ordinary by the introduction of charming and comfortable varieties of some tubular material. More than one example of this popular design may be seen any day in the Rue de la Paix, where this model was snapped. BUREAU FOR PROTECTION AND EMPLOYMENT

Colored Ministers' Union of Chattanooga Launches an Important Movement.

In a joint meeting of the ministers' union, composed of nearly all the colored pastors of this city and suburbs, the union adopted a plan to establish a ministerial bureau of protection and employment. This plan when put in operation will do much to help the domestic labor question in securing, as far as possible competent and efficient help in the homes of the people of this city.

Following upon the suggestion and counsel of some of the best people of both races, the pastors of the colored people of this city have for a long while felt and seen the need for some agency to help and assist the innocent who may by misfortune be made the victims of unwarranted arrests which so often occur, especially in the anxious days on the part of officers, a great many times, in trying to get at those who may violate the law.

In the case of the latter class this bureau will co-operate in every way with the properly constituted authorities, and as far as they can, help the law. The men who constitute the Union of Colored Pastors are men who desire not only to help the innocent and oppressed, but likewise, in every way in their power, to make Chattanooga an ideal city of law-abiding colored citizens, where as far as possible race prejudice will be unknown in the execution of the law. The resolutions adopted declare with the accomplishment of the aims set forth:

"We shall then have no more of the saying the colored people are leaving here because they are badly treated."

"We condemn lawbreakers and loafers of every class, therefore our desire to help rid the city of undesirables; on the contrary, we feel that as Christian ministers we should go to the rescue of those who may be the prey of those who would persecute them because of prejudice."

"In this step we believe that we shall have the assistance of the courts, as well as the best people of the community at large; thus, when some criminal negro commits a crime, we shall not all be classed alike."

"As to the scarcity of domestic help, we feel that co-operation on our part will in a large measure help to keep a great many here who contemplate leaving, as well as to induce others from a distance to come here."

"We shall aim as far as we can to be acquainted with the characters we recommend so as to enable us to secure for those who want help a class of employees that will give satisfaction."

Headquarters will be established shortly and every pastor of the union will register from his respective church.

THIS MAN SAYS IT'S GREAT

Mr. A. H. Arthur, of 112 Rogers street, Alton Park, Chattanooga, called on the Globe Tonic demonstrators and said: "Globe Tonic is the very medicine I have been looking for. My wife has had stomach trouble for a long while and has tried many remedies. I bought one bottle of Globe Tonic and she is improving every day. After she had used the third dose, she expelled a lot of worms. My mother became interested in the medicine and used it a few days and she expelled about a pint of great many more worms. Now, and we will continue to keep it in our house, as it is a grand medicine."

While the demonstration is in progress we are selling the large \$1.00 bottles for 65 cents (three for \$1.75) and refund the price if the first bottle does not benefit. Call on the demonstrator at 1224 Market street and let them tell you of your friends and neighbors who are using and praising the Globe Tonic, and get a free sample.—(Adv.)

MUST FIRST HOLD COURT CERTIFICATE

Motion to Admit Young Man to Bar Raises New and Unusual Point.

An interesting point of law was brought up Friday morning in chancery court when a motion was made by W. G. M. Thomas to have a young law student sworn in as a practicing attorney. The young man had passed his examination successfully, but had not received his certificate from the supreme court, and as he was to leave Saturday night to join the army, he was anxious to be sworn in. Mr. Thomas stated to the court that as he was a member of the state board of bar examiners himself and he personally knew that the young man had successfully passed the state bar examination, he wanted to make a motion that he be admitted to practice in the chancery courts. Judge Garvin stated that while he was, of course, willing and anxious to assist all young men who wanted to join the colors, at the same time the matter was entirely out of his jurisdiction and he was powerless, as the law specifically stated that before any one could be sworn in they must first have a certificate from the supreme court.
